

PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer (MERN)** with expertise in building **scalable, component-based Single-Page Applications (SPAs)** using React.js, Node.js, Express.js, and MongoDB. Skilled in **RESTful API development, JWT authentication, Redux & Context API state management**, and **cloud deployment** on Vercel and Render. Proficient in **Agile workflows**, TypeScript fundamentals, Git version control, and performance optimization. Seeking a full-stack or frontend developer role to deliver impactful, production-ready web solutions.

EDUCATION

Parul University

B.Tech – Computer Science & Engineering

Jul 2024 – Jul 2028

CGPA: **7.95 / 10**

Coursework: Data Structures & Algorithms · DBMS · Object-Oriented Programming · Web Development · Operating Systems

Woodbine Modern School

12th Standard (CBSE)

May 2024

Percentage: **64.6%**

EXPERIENCE

Coordinator – Training & Placement Cell · Parul University

Feb 2025 – Apr 2025

Coordinated end-to-end campus recruitment drives for **50+ students**, bridging communication between candidates and recruiting companies; improved placement process efficiency by **30%**.

Managed structured student databases and placement records using spreadsheet tools, streamlining eligibility verification and registration workflows.

Collaborated cross-functionally to organize **5+ pre-placement talks**, hackathon drives, and recruitment events following Agile planning principles.

PROJECTS

Full Stack E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Razorpay, JWT, REST API, Vercel

[Live](#) | [GitHub](#)

Architected a production-ready MERN Stack e-commerce SPA featuring **100+ products, component-based architecture**, RESTful API design, and MVC pattern on the backend.

Engineered **JWT authentication**, role-based authorization (admin/user), protected routes, product search, category filtering, cart, and order management – reducing unauthorized access by **100%** via token-based security.

Integrated **Razorpay payment gateway**, implemented Mongoose ODM query optimization (**40% faster DB response**), and deployed on Vercel with a CI/CD-aligned release workflow.

Shopping Cart Application | React.js, Redux, Context API, React Hooks, TypeScript (basics), CSS3

[Live](#) | [GitHub](#)

Built a fully responsive SPA shopping cart using **React.js** with **10+ reusable components, React Hooks (useState, useEffect)**, and **Context API** for global state management.

Implemented dynamic product listing, real-time quantity updates, and optimized re-render performance via memoization – achieving **30% faster load time** through component decomposition.

Tic-Tac-Toe Game | HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Jest

[Live](#) | [GitHub](#)

Developed a cross-browser compatible game with algorithmic winner detection, event-driven programming, responsive CSS Flexbox layout, and **unit testing via Jest** for game logic validation.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, C, HTML5, CSS3

Frontend: React.js, Next.js, React Hooks, Redux, Context API, React Router, SPA, Component-based Architecture, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Middleware, Async/Await, JWT Authentication, OAuth, MVC Pattern

Database: MongoDB, Mongoose ODM, MySQL, CRUD Operations, Query Optimization

Testing & DevOps: Jest, Unit Testing, Git, GitHub, Vercel, Render, Cloud Deployment, npm

Tools & Concepts: Postman, VS Code, Figma, Agile Methodology, Performance Optimization, Cross-browser Compatibility, Version Control

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900) – Microsoft (2025)
